MOUAD BAGHDADI

Data scientist

Algeria, Tlemcen • +213 797 39 40 85 • Km_baghdadi@esi.dz

Experience

Data Scientist Intern, 10/2023 - 11/2023
The Sparks Foundation - Remote, Singapore

- The sparks Foundation is a company that offers The Graduate Rotational Intership Program for students to immerse them into real data science project and encourage interns, where I contributed on building scalable machine learning system

Technical Team member, 09/2022 - Actuel
School Of AI Club - Algiers
School of AI Algiers is a scientific club at our school ESI Algiers and it's the first club specialized in AI in Algeria, we used to manage workshops, orgnize machine learning hackathon "HAICK", develop machine learning systems for the club

Skills

- Data Analytics, Data Visualisation
- Machine Learning, Deep Learning
- Web Scraping
- Tensorflow, Pytorch
- FastApi
- Tableau, Python
- Sqlite, MySql
- Flutter
- Problem Solving
-

Formation

11/2020 - 2026
ESI – Ecole nationale Supérieure d'Informatique - Algiers
concentrates: Computer & Data Science, Machine Learning, Data Analysis, Data Visualisation, Computer Architecture, Data Structure, Mobile Development

Languages

Projects

BddChat: A RAG System, BddChat empowers users to query a 150-page database textbook in natural language using a RAG pipeline and receive responses generated by a Language Model (LLM) based on relevant retreived passages from the text.
Question Answering: Deep learning model that can answer questions given some context, it can extract answer phrases from paragraphs.
Ai Research Paper Classification: Machine learning model taht classify Ai researh papers from arxiv into 4 classes based on paper's abstract for better organization.
Facial Expression Recognition: a computer vision model aimed at identifying and categorizing emotional expressions depicted on a human face.

Certificats, formations

- Nvidia - Deep Learning Fundamentals
- DeepLearning.ai - Machine Learning Specialization
- DeepLearning.ai - Deep Learning Specialization
- Google Data Analytics Professional Certeficate

Accomplishment

- **Second Place, DataHack**: Secured second place at DataHack, the largest Datathon organized in Algeria by the CSE club, outperforming 24 competing teams.
